FILM SCREENINGS

WHEN GOD SLEEPS **SUN 05.08**

The documentary tells the story of a pair of modern-day star-crossed lovers: the granddaughter of the first Prime Minister of the Islamic Republic of Iran and Shahin Najafi, a musician hit with a fatwa because of one of his rap songs.

MATANGI / MAYA / M.I.A. **SAT 11.08**

Drawn from a cache of personal tapes shot by Maya Arulpragasam and her closest friends over the last 22 years, the documentary captures the artist's remarkable journey from immigrant teenager in London to the international popstar M.I.A.

CITY OPEN AIR CINEMA - FREAKS & GEEKS

They are not glamorous, they are not popular, they are cinema's favourite characters! Pop culture wouldn't exist without social outcasts and nerdy four eyes, the stars of an impressive number of cult movies. From Scott Pilgrim to Tommy Wiseau, in *WarGames* or *Ghost World* you will get to see a bunch of touching anti-heroes do what they do best: be non-conformists, resist the rules set by adults, be the beautiful losers who (sort of) win in the end. They may be geniuses, they may be a*holes but they have one thing in common: they all remain true to their convictions.

What about you: are you a (ex-)freak or a (ex-)geek?
